

**GREEN JEWEL®**  
FOR BOTANIC GARDENING

**2 IN 1**  
IMPROVED  
FORMULA

# ORCHID FORT+ **GUARD**

**BLOOM BOOSTER + ANTI-FUNGAL PROTECTION**

**13 + 27 + 27 + TE** + **FUNGICIDE**  
(Thiophanate Methyl)

#### **BOOST BLOOMS**

More flowers,  
brighter colours.

#### **PROTECT & PREVENT**

Help protect against  
common fungal diseases.

**GREEN JEWEL ORCHID FORT+ GUARD** is formulated with 13 + 27 + 27 + TE and enhanced with a **systemic fungicide (Active Ingredient: Thiophanate Methyl)**, which is widely used on orchids to control root rot, leaf spot, and blight. Its systemic action allows it to penetrate plant tissues, providing both preventive and curative protection against fungal pathogens such as Botrytis, Fusarium, and Rhizoctonia.

This dual-action formula promotes stronger roots, fuller blooms, and brighter flower colours while helping to protect plants against common fungal diseases. It also nourishes plants while supporting overall plant health and vitality. Suitable for orchids, ornamental plants, and flowering plants.

#### **Thiophanate Methyl**

**Systemic action:** Moves through the orchid's vascular system, protecting new growth as well as treated areas.

**Preventive & curative:** Stops fungal spores from germinating and kills existing infections.

**Broad-spectrum:** Effective against common orchid diseases such as black rot, leaf spot, and root rot.

#### **Directions for Use**

Shake bottle before use

Spray evenly onto leaves,  
stems and aerial roots until  
slightly wet.

Do not apply under hot sun

Do not water  
immediately after  
application

Apply once a week
